Center

LOGO

A logo is the visual representation of the brand and communicates ownership, values, and purpose. It has the power to translate these concepts across boundaries, languages and cultures presenting a unique yet consistent context and representation of your brand.

ALTERNATIVE LOGO

The Bridge logo will work across multiple mediums and the style chosen will depend upon the environment in which the logo appears. To ensure that the logo is versatile across multiple design environments, we have created two variations that can be used appropriately.

The font colour is always consistent with changes in the icon based on the background. The two versions of the logo were created to ensure legibility and optimum reproduction quality across all digital and print needs.

CLEAR SPACE

To preserve the integrity and visual impact of the logo always maintain adequate space around it. The space around the logo ensures that the logo is visible in an uncluttered and is distinguishable amongst other logos.

The clear space around the logo on all sides should be equal for maximum legibility and impact.

LOGO IN B/W

The full colour version is preferred and should be used wherever possible and in a limited environment use the black and white versions keeping in mind no other colours besides black or white should be used. In negative versions, the symbols must also remain in the same colours as the fonts.

This ensures that the logo is recognisable.
It must be noted that the monochromatic versions have been specifically designed to meet some specific printing requirements and should not be used in other circumstances.

COLOUR

eLanguage Center

PRIMARY COLOUR

Colour is one of the most powerful tools to represent mood or feeling. It brings a brand to life and communicates a range of emotions and values. Our colours are as important as the brand itself and help form its personality.

SECONDARY COLOUR

Colour is one of the most powerful tools to represent mood or feeling. It brings a brand to life and communicates a range of emotions and values. Our colours are as important as the brand itself and help form its personality.

TYPOGRAPHY

eLanguage Center

TYPOGRAPHY

Done right, the intention behind choosing a specific type is to draw the reader's attention, direct them to the most important information first and maintain a sense of clarity, order and legibility in our written communication.

Rubik is our official font and must be used when possible. It is a humanist sans serif typeface with very acute and highly legible text forms. This font can be used in all weights and solves hierarchical issues in an easy and clean way.

Use Rubik for generic content and to highlight specific content. Rubik is a free font and is used in all marketing collateral. This is also the font of our logo.
